

Year 10 Parent Notes

I would like to take this opportunity to thank you for all of your support over this week with the adverse weather conditions we have faced. It is never an easy decision to close school, but where the safety of the students and staff is in doubt, it is the only obvious choice for the school to make. Teachers have been putting work on to Frog for students to be completing so that these days can still be productive.

I hope that students who have not secured work experience placements have used the last few days to reach out and contact companies in an attempt to secure themselves a place. There is still plenty of time for students to arrange this and Ms Lambert is currently busy checking the work placements that we have been informed about.

Ms Lambert is still offering lunch time drop in sessions on Monday, Tuesday and Friday, so if your son/daughter is still struggling with finding a placement please urge them to seek advice from Ms Lambert as we would very much like for all students to be off site during this week reaping the numerous benefits of work experience.

Please ensure the forms are returned as soon as possible? Tutors are regularly updated with what students have brought in and what is still required so if they are unsure if they have provided the school with everything, then their tutor is the first person they need to be speaking to.

The next main focus for Year 10 is preparing themselves for their summer end of year exams. So over the next two half terms part of tutor time will be spent on explaining what effective revision is as well as sharing some common revision strategies that may work for some students. Next week the main focus is to discuss what students currently do for revision and whether it is working for them or not and what they could be doing to make it even more effective.

Once again, thank you for your support over this week with the adverse weather.

Mr L Hilton
Year 10 Progress Leader
