

## Year 7 Parent Notes

As Year 7 students begin the Spring Term we hope that the feedback provided at the Progress Review Evening before Christmas is being acted on. We hope your son/daughter was able to listen carefully to the comments the teachers had to make and will during the course of this term will look to act upon the advice before the next set of grades are released just before Easter.

If you were unable to attend the Progress Review Evening with your child and would like feedback in order to support their progress please contact the staff members via email which can be found on the FROG Parent Portal.

The process of receiving feedback from staff is important to allow students to make progress. It is vital that students respond and engage with the feedback provided to them in order to improve their understanding of a subject. Before the next set of grades at Easter there will be summative assessments across most subjects in order to help staff assess the progress made. Students should continue to apply themselves in every lesson to the best of their ability and as stated at the beginning of the year attempt to make a little progress in every lesson because it will add up to big results by the end of the year.

The summative assessments are scheduled to take place during the w/c Monday 26 February and there will be further details about the content and style of the assessments in the next couple of weeks. Students can already begin the process of revising the work they have covered already this year in their subjects as a starting point for preparation.

**SHOW**time continues to run on Tuesdays and Thursdays after school in F29 and offers students the chance to complete homework. Students can attend on a voluntary basis but selected students will be invited in to support their homework completion.

Have a good week.
