

Year 7 Parent Notes

Next week it is both Maths Week and Science Week in school. Both departments will be running a series of events across the week in lessons and at lunchtimes. There are talks from external speakers, activities and experiments taking place! Please encourage your son/daughter to participate in as much as they can.

One event taking place next week in Maths is a celebration of International Pi Day and the Maths Department are celebrating with a competition. They will be having a competition to see who can accurately recite the most numbers of Pi. The Maths Department are aiming for at least 20 correct numbers but there may be some students who are able to go even further. The competition will take place at lunch time in M9 on Thursday. There will be a prizes available.

Last year the winner managed to recite Pi to an incredible 163 decimal places. To put that in context he learnt and recited in order the following list of numbers:

3.141592653589793238462643383279502884197169399375105820974944592307816406286
2089986280348253421170679821480865132823066470938446095505822317253594081284
81117450284

To celebrate a snow-postponed World Book Day many staff came to school dressed up as a book character on Thursday. There were some fantastic costumes and hopefully helped your son/daughter to be inspired to keep reading.

Finally a reminder that the next set of Year 7 grades will be input by staff and reported before Easter. Students should be working hard in every lesson to ensure they are making good progress and achieve the best grades they possibly can.

Have a good week.
