

Year 9 Parent Notes

Understandably in a week that has been dominated by the weather, there is no new information we would want to notify to parents of Year 9 students.

Mrs McNamara is continuing to check with Heads of Faculty that student option choices are appropriate. Where students/parents entered comments in the 'Student Comments' of the on-line options form, these too are being addressed. Due to all the disruption both these processes have moved quite slowly this week.

Very surprisingly, considering the repeated focus on having students having the right equipment with them in school, there are still those who when we check have one or more items missing. It is so important that the start of a lesson is not delayed, for example, by one or more students trying to find a ruler to underline the date/heading. We are continuing to carry out equipment checks both in lessons and in tutor time. Please check with your child that they have the basic requirements - pen, pencil, eraser, and ruler.

We hope that you have a good week
