Career Inspiration from Surrey Care Association

As part of National Apprenticeship Week, a group of our students had the fantastic opportunity to attend an inspiring talk from Ginny at the Surrey Care Association, exploring the wide range of careers available in Adult Social Care.

The session shone a light on how valuable life skills such as empathy, patience and communication can open the door to a truly rewarding career in the care sector. Ginny shared a powerful story about two very different individuals whose lives are connected through care and support, beautifully highlighting the real impact carers make every single day.

Students also enjoyed hearing from Jack, an Assistant Manager at a care home, through a recorded insight into his day-to-day role. He spoke about balancing hands-on support with leadership and administrative responsibilities, and shared his personal career journey, expressing just how much he values and loves his work.

A huge thank you to Ginny for taking the time to inspire our students and shine a light on this meaningful career path. We look forward to welcoming her again in the future!
