Bringing Out The Best

Year 12 University Experience Day at the University of Kent

A large group of our Year 12 students enjoyed a rain free and insightful visit to the University of Kent this week!

Students took part in a full university experience day, including a tour of the library, sports and social areas, plus helpful talks on choosing courses and making applications. They also had the chance to put their questions to current university students.

Our Year 12 students asked lots of thoughtful and mature questions about balancing study with a social life, managing a budget, meeting deadlines, and exploring specific course options.

The student ambassadors were genuinely impressed by how engaged and curious our group were about life at university, a brilliant reflection of their ambition and enthusiasm. Well done Year 12!
